THE WORKOUT WORKHORSE

CYBEX 625T

CYBEX 625T

IT'S WHAT YOU EXPECT FROM CYBEX

When you invest in a treadmill from Cybex, you expect stability, comfort, and reliable performance for your users. You also expect intelligent design and quality manufacturing – all in a treadmill that's easy to use and built to stand the test of time. The Cybex 625T delivers.

ENGINEERED TO EXCEL

At the heart of the 625T is the IS^3 Intelligent Suspension System, the result of extensive research conducted by the Cybex Research Institute. The 625T's deck is soft at landing, firm in the middle, and rigid at toe off to precisely match the body mechanics of running and cushion shock on every step.

With a low step-up height of 8.5" and generous 60" × 22" running surface, the 625T appeals to everyone from casual fitness members trying to shed a few pounds to avid athletes looking to push the pace.

BUILT FOR THE LONG RUN, WALK, OR JOG

Take a closer look at the 625T and you'll notice that the belt is covered edge to edge to minimize wear and improve user safety. Plus, the deck can easily be flipped to further extend its life.

Most important, the 625T is built to the highest manufacturing and environmental standards by Cybex in our ISO 9001-certified plant in the USA. So it will stand up to the most demanding fitness environments and challenging workouts.

The Cybex 625T is a value-packed treadmill that delivers the performance features that will keep users happy and business healthy.

MORE ROOM FOR MORE MEMBERS
The 625T offers a large 60"L × 22"W running area

SPECIFICATIONS

PRODUCT NUMBER	625T
SPEED	0.5 – 12.4 mph (0.8 – 20 kph)
INCLINE LEVELS	0% – 15%
RUNNING AREA	60” (152 cm) L × 22” (56 cm) W
DRIVE MOTOR	5 HP Peak AC
INCLINE MOTOR	1000 lbs thrust
DIMENSIONS (L × W)	82” × 34” (208 cm × 86 cm)
DISPLAY	Time, Speed, Incline, Distance, Calories, Heart Rate, Calories per hour, METs, Watts, Pace; Graphic display of workout profile via 8 × 15 LED matrix
WORKOUTS	Quick Start, Manual, 9 standard programs including Heart Rate Control, 1-mile Fitness Test, and Gerkin Protocol
STEP-UP HEIGHT	8.5” (21.5 cm)
HEART RATE MONITORING	Contact and Polar® Wireless
CONNECTIVITY	CSAFE (Fitlinxx® Certification Pending)
MACHINE WEIGHT	485 lbs (220 kg)
MAX USER WEIGHT	400 lbs (181 kg)
POWER	110V, 115V, 208V-220V, 230V
COMPLIANCE	FCC, ETL listed to UL1647, EN, CE, ASTM, CSA
COLOR	Available in five standard colors or a virtually unlimited variety of custom frame colors with gray enclosures

in a compact 82”L × 34”W footprint.

A GREAT WORKOUT IS WITHIN REACH

The 625T's split-level display keeps workout programs and metrics at eye level, so users can focus on their performance. Volume, speed, and incline buttons are built into the console, giving your users total control at their fingertips for greater stability. Plus, you can choose the optional wireless audio receiver to feed sound from your wall-mounted televisions.

SEE IT ALL

The large, vibrant upper display puts data and exercise profiles at eye level.

TAKE CONTROL

Speed, Incline, and Track buttons – plus Volume and Channel on AV-equipped models – are right next to the hand grips.

STORE EVERYTHING

A central storage tray is big enough to hold a smartphone, keys, and wallet – all at the same time.

STAY SAFE

Safety Sentry™ checks for a member's presence by monitoring heart rate, footfalls, and keystrokes.

DRINK UP

Two oversized bottle holders provide plenty of storage for water and sports drinks.

KEEP READING

Sturdy reading rack holds magazines and books securely in place during aggressive workouts.
